Health Tips

Remember the Three W's:

Wash your hands.

Wash well and often. Soap and water scrub x 30 seconds is preferred. Hand sanitizer with at least 60% alcohol when needed. Do not touch your face unless your hands are clean.

Watch your distance.

Stay 6 ft away from others as much as possible. Please remember this when you are on lunch break, in the staff lounge, while on duty, and during your planning times. I would like to see us follow this more closely.

Wear a mask.

Find a well fitting mask. Your mask should cover your nose and mouth. All face covers (masks or gaiters) should be at least two layers thick. Masks with valves are not recommended by the CDC.

Upcoming Events

November 26 & 27 Thanksgiving Holiday (No school)

November 30 Interim Reports Period 2

Sent home/online

November 30 Open Enrollment begins

Reminders

- School/class tardiness or early checkouts can negatively impact student's academic success. Parents and students should make every effort to ensure that students are **always** punctual to school and class. Good communication between the home and school can improve the chance that students do not accumulate excessive tardies or lose learning opportunities because of early checkouts.
- Wednesdays are early release days for students at 12:15pm.
- November virtual days for students are November 23-25, 2020
